OBJECTIVE:

Highly motivated graduate from an intense software development bootcamp, aiming to transition into a career as a software developer. As an accomplished professional in fine dining, I am skilled in high pressure situations, a natural problem solver, and a great communicator.

EDUCATION:

University of California, Irvine, Irvine, CA

Full Stack Software Development Bootcamp December 2022 - June 2023

Relevant Coursework: Full-Stack Web Development (MERN Stack) Bootcamp: In-depth training in building modern web applications using MongoDB, Express.js, React.js, and Node.js, with a focus on creating dynamic and responsive user interfaces and integrating backend services, including building RESTful APIs as well as GraphQL for seamless data exchange.

WORK EXPERIENCE:

- **Webstacks** - *Software Developer, November 2023 - present*

As a Software Developer at the Webstacks, my responsibilities encompass a range of tasks vital to the development and maintenance of web projects. This includes actively participating in bug fixes, conducting thorough pull request reviews to ensure code quality and adherence to best practices, and collaborating on various tickets to implement updates and enhancements across multiple sites. Additionally, I am involved in the migration of websites to TypeScript, leveraging my skills in both Next.js and Gatsby frameworks. My role involves engaging with the development team to address challenges, contribute to the improvement of codebases, and gain valuable experience in web development processes and technologies.
